

Pre-Sale Engineer 2012

Throughwave (Thailand) is looking for a highly motivated Pre-Sale Engineer to help our partners on selling industry leading IT infrastructure equipments and world-class professional services. We provide the exciting, fun and flexible work culture as well as a great opportunity to learn and work on the cutting edge technologies.

Responsibilities:

- Assist system integrator sales teams in selling the products and solutions.
- Handle customers' projects and provide solutions to customers' needs.
- Create competitive product analyses.
- Create solution proposals for customers.

Qualifications:

- Bachelor's Degree in Computer Science/Engineering or equivalent. (Little experience or none is O.K.)
- Enthusiastic and energetic self-starter with good interpersonal skills.
- Positive attitude toward team working and willing to go extra miles in order to accomplish job assignment.
- Excellent presentation skills.
- Good command of spoken and written English.

What you will learn or prepare to learn here:

- Excellent knowledge of Internet applications such as web service, E-mail and wireless applications.
- Excellent knowledge of networking protocols such as DHCP, DNS, LDAP, VPN, firewall, IDS and security systems.
- Excellent knowledge of storage systems such as NAS, SAN and storage management.

Please send us your resume to job@throughwave.co.th

We are equal opportunity employer, so please refrain from sending us unrelated personal information like age, race, your photo, or marital status.
